Dear Hiring Manager,

As a seasoned and skilled quality engineering lead I am positive that I can make substantial impact in quality of the software as well as growth of engineers for your organization. I am thorough, organized and detail oriented, which is a must for this job. My management and technical skills are excellent and I have good amount of exposure to tools and technologies required for this job.

At my current position I am leading a functional team of quality engineers, while being part of a development team. My responsibilities consist of mentoring and helping other Quality Engineers in designing Test Frameworks, Test Plans, Test Strategies, resolving blockers, production support, code reviews, and creating roadmaps and other required plans and documents.

The enclosed resume provides detailed overview of my past work. I hope you will find my profile to be a good fit for this role. Please feel free to reach me at (408)-930-5589 or nikhil_sharma@aol.com.

Sincerely,

Nikhil Sharma
